Summary

With over 8 years of experience as a Senior Full Stack Engineer, I have designed, developed, and maintained web and blockchain applications for various domains and industries. I have a strong background in object-oriented programming, data structures, and algorithms, as well as quality coding and debugging skills. I have also used Unity to integrate games with Telegram bots, creating engaging and interactive experiences for users. I have successfully led and collaborated with teams of developers to deliver high-performance, scalable, and secure web applications, using Python, Django, React, AWS, and other technologies. I have also contributed to the optimization of database queries, server response time, and system performance, resulting in increased user retention and revenue growth. Additionally, I have developed and implemented strategies to execute major project deliverables and provide compelling commercial value to clients. I am passionate about solving complex problems and creating innovative solutions that make a positive impact.

Experience

Senior Frontend Developer

Costo AI

Jan 2024 - April 2024 (3 months)

Principal Skilled Full Stack Engineer & Team leader

DazzleLabs
